The RW250-RG will focus on the rich Revolutionary Era history throughout Westchester County. We will also exchange news on the regional, the state and the national commemoration plans for the 250th anniversary. Ideas that bubble up from the **RW250-RG** liaisons may turn into events or projects of great interest to your membership.

Details for Prospective Liaisons: Each session will feature a short informational presentation by a member group, followed by time for questions and sharing. It is expected that the Roundtable will meet quarterly and liaisons will participate in occasional email exchanges. Questions and/or the names of prospective liaison(s) can be sent to me as soon as possible. For venue and parking information at the White Plains Library: Call 914-422-1400 or visit <https://whiteplainslibrary.org/info/>. I look forward to discovering more of our Westchester County's Revolutionary history with you and pondering the enduring questions of today. We will learn from each other the stories of our fascinating local people and places.
